ABOUT US

- Saudi Light Industries Company Ltd. (SLIC) is the first foam factory in the Kingdom of Saudi Arabia, as it was founded in 1967 with a group of 15 employees working in a factory with an area of 6000 square meters, on Madinah Road.

- Production was limited to manufacturing mattresses and pillows of low and high density foam, besides the PU Rabid foam production line .

- In 1978 the factory was renewed, expanded and moved to its current location Jeddah - Kilo 16 - Old Makkah Road

- in 1998 to keep pace with the increase in distribution to many regions of the Kingdom, the factory was re-equipped with the latest Italian and German technologies. The factory now occupies an area of 60,000 square meters with an increase in the number of employees to 200 employees. This gives us the advantage of speeding customer orders in mass quantities.

- In 2017, the factory activity was expanded to include designing, manufacturing and equipping hotel rooms using the latest Italian automated carpentry machines. A modern production line was added for assembly mattresses, increasing productivity and quality control
